

EV made easy with ADVAM

Connect
Charge
Pay

With the shift to electric vehicles gathering pace around the globe*, the need to provide an infrastructure of simple-to-access, simple-to-use EV Charging points is accelerating.

Now, ADVAM — one of the world's leading payment solutions providers — is working with EV Charging point manufacturers and our international network of Shopping Centre, Airport, Parking Operator and Local Government clients to transform the payment experience for electric vehicle drivers everywhere.

Secure the benefits with the way to pay

ADVAM

— Global Leaders

**EV
Charging**

**Self-service
expertise**

**Parking
operators**

**Banking
acquirers**

We've made EV Charging payments easy.

ADVAM's technology makes paying for EV Charging via card or mobile wallet simple, swift and secure. All drivers need to do is to park, connect, and tap.

Once the charge is complete, final payment is deducted from their pre-authorised card.

Unique to ADVAM, there's no need to tap again or wait for a high pre-authorised amount to be reconciled.

They can simply disconnect and drive away.

It's a seamless, easy-to-use experience via an intuitive interface that's been designed with the consumer in mind.

Connect

Select a recharging point and connect the car

Charge

Tap a payment card or mobile wallet to start charging

Complete

The total amount is deducted from their card

**Simple
Swift
Secure**

Convenient

No app needed, and no high pre-authorisation charge required

Precise

Customers pay for the exact charge they use — no more, no less

Robust

Robust terminals, locally supported, connected to the ADVAM Gateway

Robust technology, intuitive interface, easier payments

ADVAM EV Charging is built on a proven platform that combines high performing, robust payment terminals, an intuitive user interface, and connection to the ADVAM Gateway — our fully secure, compliant payment infrastructure. A comprehensive reporting and account administration management portal are also included in the package, alongside the option of an online consumer receipts portal.

ADVAM EV Charging comprises...

Premium Terminals

Our robust contactless terminals, which are seamlessly integrated into your charging points, are designed to withstand harsh environmental conditions and deliver fast, secure payment processing. A P2PE validated solution, terminals can also be specified with multi-machine or single machine integration — allowing you to provide the best platform for you and your customers.

The ADVAM Gateway

As a Level 1 PCI DSS Service Provider, ADVAM possesses global expertise in payments, and the ADVAM Gateway is our proprietary payment processing engine. With bank relationships across more than 20 countries the Gateway is where our clients' customer payments and refunds are processed — quickly and securely.

Administration portal

ADVAM's fully-featured online administration portal puts you in complete control of your EV Charging infrastructure. Use it to access and evaluate transaction and billing reports, review and manage your customers' transactions and process refunds.

Consumer receipts portal

We're also able to help your customers manage their transactions with you via the consumer receipts portal. Available on your website, you can configure branding and business information you present to your customers. Once they log on via their card details, they're able to view and download receipts for their own use.

Choose EV Charging from ADVAM, and we'll be with you every step of the way. We're experts in managing all aspects of integration — with equipment, technology partners, site owners and merchants — to ensure it all works for you and your customers.

ADVAM — transforming payments around the world

Easier for consumers, better for you

ADVAM make it easier for consumers to buy the things they need — reliably, efficiently and securely. That means our clients secure the benefits that flow from providing their customers with better payment experiences.

Truly multi-channel

Our product suite is truly multi-channel — online, mobile, unattended and via digital wallets. It's a user-centric approach that's right for everyone — wherever they are, and whichever way they want to pay.

Seamless transactions

Our secure and compliant capabilities not only deliver powerful and positive consumer experiences, they also ensure our clients get real business benefits from seamless transaction processing.

Global strength

From our offices in Australia, the US, and the UK, and with customers and acquirer links in over 20 countries, our client portfolio includes globally leading enterprises and public sector departments. We provide our clients with 24/7 local support, and we meet the industry's highest standards of security and compliance.

Broad expertise

Our sector expertise includes airports, parking operators, shopping centres, local government, health, education, entertainment and self-service organisations. Our experience means ADVAM clients benefit from our in-depth industry knowledge.

Part of a worldwide business

ADVAM is a TNS Company. TNS provides global data communication networks enabling clients to interact and transact with other businesses simply and securely.
