

AltitudeReservation is a market-leading online reservation platform. It delivers full flexibility in booking journey design, yield, pricing and promotion management.

Create an online channel to engage with your clients

Create and implement a solution that's tailored to your business and customer needs. Make it easier for your customers to engage and use valuable data to build customer profiles, increase customer value and drive loyalty.

Seamless Customer Journey

AltitudeReservation is fully responsive, enabling customers to book via desktop, tablet and mobile. It's also continuously evolving, with improvements and new features released regularly.

Intuitive CMS

Intuitive content management system makes it simple for you and your team to update information and content pages.

Digital Wallet Integration

AltitudeReservation integrates with Wallet for iOS and PassWallet for Android, which enables you to offer your customers access to booked services from their mobile device.

Email management

Easily create relevant communications that suit different products, making sure that customer communications are relevant to the products booked and to maximise upsell opportunities.

Tailor products to suit your customer base

Tailor pricing, products, create special offers or bundles, to suit forecast capacity and match seasonal trends.

Forecasting simplified

View your advance bookings and manage future capacity. Add ADVAM's optional RevenueManagement module, and you can also integrate forecast models to plan future capacity and pricing.

How AltitudeReservation works

Intuitive online booking

Customers choose and reserve the car park they want to use, book any other ancillary services you wish to offer, and pay via your preferred payment options.

Once your customers arrive at the car park, their journey is easy. ADVAM integrates with your existing access control equipment, allowing you to offer ticket free access through ANPR, Credit Card or Bar Code entry.

Highly configurable web presence

Work with ADVAM to create your optimised booking journey or you can take control and use our suite of APIs to develop and manage your own customer interface.
